

Wall-mounted ventilator with sound absorption

Application

- The AEROTUBE DD 150 is a passive air ventilator for installation in exterior walls.
- For houses, apartment buildings, and office buildings
- Suitable for renovations and new buildings
- With sound absorption pipe especially suitable for living rooms and bedrooms

Unit properties

- The room is ventilated as the indoor and outdoor air pressures are equalised (pressure differential).
- Filtered fresh air is supplied via the AEROTUBE DD 150 to living rooms, bedrooms and children ´s rooms as well as to offices and recreation rooms.
- Comfort is enhanced by the specially designed outflow openings as well as the continuous slider.
- Closed vent base, therefore optimised air mixture laterally and upwards with the existing warm indoor air

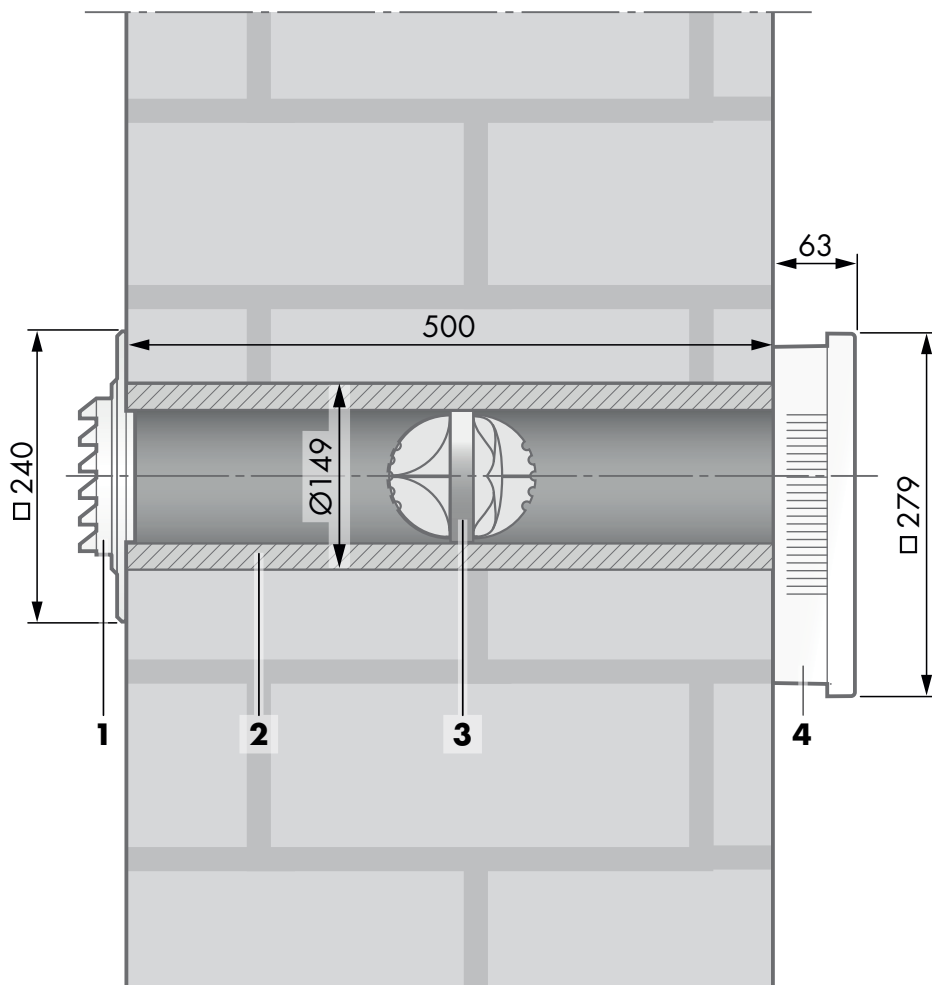

Technical specifications and colours are subject to change.

H40.WANS008EN/0

Technical specifications

Material description	AEROTUBE DD 150
Sound absorption $D_{n,e,w}$	L = 500 mm 46 dB
Volume flow	14 m ³ /h at 2 Pa 20 m ³ /h at 4 Pa 29 m ³ /h at 8 Pa 32 m ³ /h at 10 Pa

Dimensions

- 1** Weather grille
- 2** Sound absorption pipe
- 3** Wind pressure barrier
- 4** Casing with slider and front panel
